4th International Symposium

Collaborative Research Center 415

Specificity and Pathophysiology of Signal Transduction Pathways

Signal Transduction Research – Basic Principles and Clinical Perspectives

September 10-12
2009
Hamburg (Germany)

Symposia Topics

Notch and Sphingosine Signaling Pathways, TNF Signaling, Apoptotic and Non-Apoptotic Death Receptor Signaling, Intracellular Trafficking, Inflammation and Infection, Perspectives in Cancer Immunotherapy

Symposia Speakers

Patrick Baeuerle, Gian Paolo Dotto, Sarah Spiegel, Martin Krönke, Harald Wajant, Marcus Peter, Henning Walczak, Peter McPherson, Peter Kloetzel, Christopher A. Hunter, Richard S. Blumberg, Stefan Rose-John, Wolf Hervé Fridman, Thomas Blankenstein, Olivera Finn

Venue

Hotel Hafen Hamburg, Hamburg/Germany

Further Information

Prof. Dieter Kabelitz, Chairman of the SFB 415
Institute of Immunology, University of Kiel
Arnold-Heller-Str. 3 / Building 17, D-24105 Kiel, Germany
Phone: +49-431-5973340, Fax: +49-431-5973335

Secretary

Dagmar Reinsch (sfb@immunologie.uni-kiel.de)

Organizing Committee

Silvia Bulfone-Paus, Ottmar Janssen,
Dieter Kabelitz, Holger Kalthoff, Frank
Petersen, Norbert Reiling, Stefan Rose-
John, Stefan Schreiber, Stefan Schütze
